

# "Change For Life" Baby Bottle Drive

**Our Church Community is raising funds for the Free Women's Center of Pulaski County (FWC).**

The primary function of the Free Women's Center is to save innocent babies from the horrible death of abortion while *empowering their mothers and fathers* to make healthy life choices consistent with the intrinsic value of human life. Help them share the truth with men & women who find themselves facing an unplanned pregnancy.

By supporting the Baby Bottle campaign, you are helping pregnant women obtain high quality services at no cost. These services include pregnancy testing & counseling, limited diagnostic ultrasound in the Holy Infants room, adoption referrals, post abortion support, prenatal and parenting education classes, material & financial support, and linkage to community resources. Many abortion vulnerable women seek help through FWC and since opening their doors in 2011 they have saved over 236 babies from abortion!

**Great news!** Thanks to the Coronavirus Aid, Relief, and Economic Security (CARES) Act: **Small donations up to \$300 are now 100% deductible**—even if you do not itemize your deductions.

## **Steps:**

- 1. Take a bottle;**
- 2. Fill with donations** (friends & neighbors can help);
- 3. Return it by Father's Day (21 June).**

If you don't get a bottle, you can help your neighbor fill theirs or you can donate to the FWC at [www.supportmyfwc.com](http://www.supportmyfwc.com).

*"It is not the will of your Father who is in heaven that one of these little ones should perish."* – Matthew 18:14
